# ABOUT US

FIRST CANADIAN POS INC.

PROUDLY CANADIAN

David Corriveau is a lifetime resident and business owner in the Waterloo Region.

I started B&D Deliveries in 1987 and was always a “numbers guy“ managing the books for several businesses ever since.

B&D began using credit and debit processing around 2001 with Chase Paymentech and it was a terrible experience. We were paying a fortune in fees and leased over 40 terminals for our drivers that cost us any profits we had hoped to make. I looked around for years for alternatives before finding Pivotal Payments. They saved us over 50% on fees and allowed us to rent terminals that were far better for expenses.

I asked them if they can beat all prices, like they did for us, and started selling processing in 2009. I gave business owners a set transparent price and explained all costs upfront. I negotiated an excellent contract with Nuvei (formerly Pivotal) that allowed me to offer merchants the best pricing, excellent customer service and a great reporting website.

First Canadian POS Inc. has grown to become one of the largest volume processors in Southwestern Ontario with hundreds of local merchants including large retail and restaurant groups and many local car dealerships.

We will continue to thrive locally, in this industry, as we bring a long overdue professionalism to payment processing. Let me take the worry of your credit and debit processing off your plate forever!
